

ROBERT PITTMAN

Rutgers University Certified Full Stack Web Developer

+9734410071 @ robpitt271@gmail.com https://www.linkedin.com/in/robert-pittman-380854164/ Orlando FL

SUMMARY

Full Stack Developer with 7+ years of experience specializing in Node.js, React.js, Kafka, GraphQL, NoSQL, and SQL. Expertise in designing microservice architectures, building RESTful APIs, real-time messaging systems, and payment processing solutions. Successfully led the development of a high-impact \$850K project, enabling seamless payment processing and confirmations. The solution was praised as a gold standard by the client and doubled their revenue post-deployment.

EXPERIENCE

core10

Senior Node.js Full Stack Web Developer

Core10

09/2021 - 12/2024 Remote

Core10 is a North American provider of banking, lending products, and financial technology services, specializing in delivering cost-effective development solutions designed for the fintech industry. My role includes:

Hiring/interviewing, lead an agile team of 5 full stack developers.

Designed and deployed Node.js/Feathers.js microservices, managing the entire lifecycle from development to production.

Implemented and Optimized payment scalability by implementing Kafka, enabling seamless processing during high call volumes.

Refactored AWS DynamoDB architecture, improving data storage and retrieval efficiency by 35%.

Node.js Full Stack Web Developer

OneRail

03/2021 - 2021 Florida - Hybrid

OneRail is a company specialized in last-mile delivery solutions, offering delivery order automation including multimodal optimization, and automated rate shopping, catering to industries including retail, food and grocery, manufacturing, wholesale, distribution, and healthcare. My role included:

Built Node.js microservice applications to manage FSTP file systems, consuming EDI files parser for 204, 214, and 209 formats, enabling seamless integration of delivery dispatches into the core application.

Increased team efficiency by {20%} through training backend developers on core dispatching systems and best practices.

Implemented New Relic.js for advanced Application Performance Monitoring (APM), enhancing application performance visibility and debugging capabilities.

Node.js Full Stack Web Developer

Don-Rick LLC

01/2017 - 03/2021 New Jersey

Don Rick simplifies event planning by offering premium venues for occasions like conferences, weddings, and private gatherings. Through its innovative software, clients can effectively browse, book, and manage events with ease.

Developed a Node.js/React.js application for inventory and client management, serving both client-facing and internal admin need

Designed and maintained RESTful APIs using Node.js, Express.js, and TypeScript.

Deployed responsive frontend applications with React.js and TypeScript, enhancing user experience and reducing load time

Automated CI/CD workflows using GitHub Actions, cutting deployment times by 50% for Manual deployments.

Increased e-commerce platform's transaction volume by 25%, resulting in an additional \$2 million in annual revenue.

Enabled a 30% rise in customer retention by implementing a customer feedback feature using Next.js and Redux.

Improved website load times by 40%, enhancing user experience and reducing bounce rates by 15%.

SKILLS

STRENGTHS

Leadership Excellence

Adept at managing and motivating cross-functional teams, driving them towards successful project completion.

Project lifecycle management

Ability to manage full project life cycle effectively.

Web application development

Building responsive and efficient web applications consistently.

Technical Expertise

Skilled in delivering high-quality, scalable web solutions using modern frameworks and technologies.
